OPU-1 B

UNIVERSAL ELEVATED ABS ENCLOSURE

A universal enclosure for mounting of modules. The elevated mounting makes it easy to connect the wires and hide them in the enclosure, which is especially useful when an extra length of hidden cable is required for the device to be mounted in it. A tamper switch, triggered by opening the enclosure, is also installed inside it.

- compatibility: **ETHM–1 Plus**, **INT–ADR**, **INT–E**, **INT–O**, **INT–PP**, **INT–R**, **CA–10 E**, **MP–1**, **ACCO–KP**, **ACCO–KPWG**, **INT–KNX–2**, **ACU–120**, **ARU–100**, **ACX–200**, **INT–RS**, **INT–RS Plus**, **INT–FI**
- easy installation
- tamper protection against opening
